We Grow With You.

ABOUT GOMUKI

The Gomuki Group is an established player in the Indian Textile Chemical Industry. With their world class infrastructure, and commitment to global quality standards, high customer satisfaction, cost efficiency and sustainability, they are a class apart among their peers. Having branched into Paper and Household products as well, The Gomuki Group does it all with the latest eco-friendly technology and high levels of cost effectiveness.

Headquartered in Coimbatore, Tamil Nadu, India, The Gomuki Group supports leading textile manufacturers across the globe by providing high quality sizing products and more. They are GOTS and OE-KO-TEX, TUV ISO 9001 & 14001 certified.

Using The Gomuki Group products and solutions ensures that their end customer meets the stringent international laws and regulations needed for imports and exports.

OUR MISSION

At Gomuki, we strive to deliver solutions that enable our customers to achieve the high quality standards needed to meet the international and local regulations and market standards.

We believe in being a pioneer in bringing new technology to our field of work and achieving the best standards at fair price.

OUR VISION

- Be innovative and progressive in our solutions
- Be Eco Friendly and sustainable in production
- Be aware and attuned to latest technologies

WHY GOMUKI

Continual R&D

With our in-house R&D team, next eco-friendly sustainable solution is just around the corner.

World class infrastructure

We constantly adapt to industry standards in manufacturing technologies.

Innovative products

Innovative custom built products for specified end use.

Eco Friendly

We have created and perfected 100% biodegradable sizing chemicals and more.

Customer friendly support team

Guidance team at Gomuki is highly efficient and supportive to all our customer queries.

Certifications for global quality standards

With our scientific testing facilities, both raw materials and finished products are constantly monitored.

OUR PRODUCTS

At Gomuki, we deliver solutions that enable our customers to achieve the high quality standards needed to meet the stringent international and local regulations and market standards.

Our goal is singular - attain maximum perfection and cost efficiency at the same time. And what do we do to achieve this goal?

It starts with the unrelenting product development team at Gomuki, who embark on a quest to find a better way to do the usual - every day. Once team is done with it's take on things, next comes the testing labs whose stringent standards and testing methods are on par with the international standard institutions themselves. In this endeavor, we perfect our manufacturing style and quality, every single day. We continue to build on our strengths with an ongoing quest to improve and optimise our existing processes.

TEXTILE

Gomuki's end to end Textile Specialty Chemical Solutions play an integral role in the textile supply chain across the globe by supporting export companies, with special chemicals for pre-treatment, sizing, dyeing, printing and finishing of textiles. Our product packages enhance the properties of apparel and other textiles in applications as diverse as high fashion, home textiles and special technical textiles.

KEY APPLICATIONS:

Sizing: Sizing of fine to super fine count as well as coarse count also including specialty chemical like a modal yarn, outlast yarn, etc.

Apparel: Includes clothing of all types and fashions with denim, cotton and more.

Home textiles: Such as terry towels, drapes, linens, and furniture fabrics.

Technical textiles: For applications including medical, construction and more

PAPER

Gomuki's Paper Solutions Business is focused on having a product range enhancing both the optical and functional properties of paper. Our product development team is constantly looking at ways to optimize production processes for our customers, and innovate around our products and services in accordance with market trends.

KEY APPLICATIONS:

Printing and writing
Coated paper

Tissue and toweling
Packaging and board

Nonwovens and specialties
Newsprint

HOUSE HOLD

Gomuki's Household Solutions Business is having a product range creating a set of chemicals for household products like Mosquito Coils.

Our product development team is constantly looking at ways to optimize production processes for our customers, and innovate around our products and services in accordance with market trends.

KEY APPLICATIONS:

Insecticides, Mosquito Coils

MANAGEMENT
TEAM

Founded by Mr. Ponthiyagarajan, in the year 2000, The Gomuki Group has been in the business for over a decade now. In this time, while they started out with just textile chemicals, they diversified into paper products and household products as well. The top members of the leadership team are experienced veterans in the textile chemical business.

Experienced Veterans

At Gomuki, our exceptional team is constantly focused on innovative products and techniques involving methodologies and processes to help our customers achieve their export goals.

Capitalize on Industry Trends

By combining our extensive industry knowledge and experience, we end our clients achieve excellence with our specialty chemical products to capitalize on shifting industry trends.

INFRASTRUCTURE

Our factory and offices are setup in a safe, clean and environmentally friendly manner to enable an ideal atmosphere for our employees. It's built to bring about optimum cost efficiency in all stages of production. Our factory is equipped with international quality analysis equipments and records maintenance to study the quality of raw materials and finished products. We are committed to maintaining accurate quality required by global certification institutions while ensuring timely delivery every time.

ECO FRIENDLY

The Gomuki Group is located in a lush green surrounding property and is constantly striving to be eco-friendly. This very principle translates into our production and manufacturing unit as well. We are a future-oriented and future-friendly company where we have adapted to the growing trend of eco-friendly manufacturing and processing.

About Size SMF ST:

Size SMF ST is an innovative product bearing the fruition of our innovative R&D labs, perfecting this natural blend ratio.

- It's a biodegradable product, providing extremely high adhesion to all fibers like cotton, P/C and P/V.
- We give Textile yarn various fibre low viscosity for which is prime need for present high speed shuttleless loom.
- It's suitable for fine to superfine counts and all types of looms for speeds upto 1200 RPM.

ECO FRIENDLY PRODUCTS

We are also sustainable in the long run, making us truly eco-operational. While manufacturing, we are efficient in using natural resources and are careful about our waste disposal. Ask about our 100% synthetic polymer free sizing products – Size SMF ST and Size FIX 150. They are biodegradable and give low viscosity to textiles yarn to support on current high speed shuttleless loom.

100% synthetic polymer free sizing products

While manufacturing, we strive to be efficient in using natural resources and are careful about our waste disposal. To equip this, we have 100% synthetic polymer free in our products also in our range of our sizing products, they are Size SMF ST and Size FIX 150.

About Size FIX 150:

- It's a biodegradable product, providing extremely high adhesion to all fibers like cotton, P/C and P/V.
- The film is extremely flexible.
- When compared with conventional size mixing, a lesser quality of Size FIX 150 is required.

OUR CERTIFICATIONS

With decades worth experience and expertise, Sri Gomuki and its expert team members always make sure the global standards are met at every stage of production and in every department.

Following are the certifications awarded to our company for that.
